

A DANGER OF SPIRIT COMMUNICATION  
WITH A PENDULUM

pt. 2

(poem)

-by B. Edwards

Just like myself  
who began hearing these voices  
after recording EVP  
a man I once knew  
began hearing them to  
his nightmare began  
after communicating with spirits  
by using a pendulum  
and from what he told me  
it went much the same way  
neither of us were big enthusiasts  
for this sort of thing  
but unfortunate events  
and a few bad decisions  
led us into circumstances  
where we began to hear voices  
and experience "spiritual intrusions"

and this is at least one of the risk  
this is at least one way  
that it can go down  
while the communication begins  
"entities" can put all sorts  
of ideas in your head  
what may seem  
like such a fascinating experience at first  
a remarkable personal discovery  
can turn into a nightmare  
when the voices begin to take over

and these voices  
that's such a separate story unto itself  
a personal story  
that involves the fabrication of stories  
"stories from the voices"  
stories from down the rabbit hole is more like it  
stories and lies unleashed upon your life  
"don't go out outside.....don't talk to anyone else"  
that's a common one right there  
but just the tip of the iceberg  
so many stories  
and often.....they don't stay consistent for very long  
but their purpose is to mess with your head  
to paralyze you with confusion  
to fill your life with voices and stories  
so stay clear my friend
